TV in Viet Nam

Thirty years ago in Viet Nam, very few people had TV sets. These TV owners were very popular. After dinner, their neighbors gathered both inside and outside their houses. Some watched through the windows.

All evening, they sat and watched the black and white programs. The older people might sleep a little and the children might play with their friends, but no one went home until the TV programs finished.

Time have changed. Today, many families have a TV set. People sit in their own living rooms and watch TV. Life is more comfortable now, but many neighbors don't spend much time together any more.

Now complete the summary. (Bây giờ hoàn thành đoạn tóm tắt sau.)

But on it I can listen to all
The programs I want to hear
From countries far and near.
I like my little radio.
It's the way I get to know
About the things that interest me.
And I hear them all for free.
